# Hi-cap Fiber Connect

The Hi-Cap Fiber Connect Service from MainOne provides dedicated, high-speed, high-performance, high capacity service with built-in route redundancies to improve service availability and efficiency, minimize business risks and reduce downtime.

This service enables interconnection between your data centers and other locations including Data Recovery sites, and your Head Quarters with guaranteed delivery of high-speed data transfers between locations.

With Hi-Cap Fiber Connect Service, MainOne takes on the liability of managing your network backbone and ensuring uptime meets service level agreements (SLAs).

Service is currently available to businesses in Lagos, Nigeria

## BENEFICIAL FEATURES

- **Speed:**  
Guaranteed dedicated, high speed from 10Gbps and above with secure service links.
